SUMMARY

Junior Fullstack Developer with experience building web and mobile applications using Flutter, Next.js, Django, and Laravel. Developed REST APIs, authentication systems, and integrated frontend-backend workflows across multiple projects including an employee attendance system with face recognition and GPS validation. Able to deliver end-to-end features from database design to user interface implementation.

EXPERIENCE

CV. Adisatya IT Consultant – Kabupaten Kediri, Indonesia Feb 2025 – Jun 2025

Internship Mobile App Developer

- Built an employee attendance mobile application using Flutter with Nylo architecture.
- Implemented dual verification system using face recognition (with liveness detection) and GPS-based validation (10-meter radius) to prevent attendance fraud.
- Succesfully Developed 16+ application screens based on UI/UX design.
- Integrated REST APIs and implemented authentication using Keycloak for secure user management.

CV. Adisatya IT Consultant – Kabupaten Kediri, Indonesia Jun 2024 – Sep 2024

Internship Web Developer

- Developed an internal course management system using Django and Django REST Framework
- Designed and implemented 14+ REST API endpoints for course, enrollment, and progress tracking features
- Improved code quality by implementing 20+ unit and end-to-end tests
- Built responsive landing page based on design specifications

DPRD Kota Kediri – Kota Kediri, Indonesia Feb 2024 – Jun 2024

Freelance Web Developer

- Developed a legal document management system (JDIH) using Laravel, PHP, and MySQL
- Implemented key features including document management, search functionality, and detail views
- Collaborated in a team of 5 using Git and Trello to ensure timely project delivery

PORTOFOLIO

Sporton Store - Fullstack E-commerce App (Next.js, MERN Stack)

- Built a fullstack e-commerce application using Next.js (frontend) and Node.js/Express (backend)
- Designed and developed REST API for product and category management with MongoDB database
- Implemented client-side state management and integrated API for dynamic product data
- Handled asynchronous data flow between frontend and backend for real-time data rendering
